ERTIP Products Health Services Marketing and Foreign Trade Limited Company was established in 2005 as a subsidiary of the Turkish pharmaceutical and medical device institution, which was established in 2005 to innovate and direct the field of hair transplantation and medical aesthetics.

During its journey of nearly 20 years, it has become a world-renowned company by developing the FUE micromotor and motorized FUE punch system, which it supports and produces with R&D and workshops, making Türkiye a brand in hair transplantation. In addition to being the leading company of Türkiye by creating quality, innovative and customizable products, it responds to the projects and demands of doctors and health institutions in the best way by producing various products with high quality materials approved high-quality and documented by the Ministry of Health in its workshops.

ERTIP has ISO-9001:2015 and ISO-13485:2016, TSE service qualification, CE quality certificates. It carries out the production of materials such as UBB registered, Class 2A CE certified FUE punch, forceps, 4 motorized medical aesthetic and hair transplantation chairs, medical stools and device tables, which are needed in the medical aesthetic field and surgical hair transplantation sector. With the interest and expertise it shows to its international and local customers, it provides service with its after-sales support team, together with its large expert sales staff and R&D engineers registered with the Medical Devices Agency of the TR Ministry of Health. It is one of the most important manufacturers of the sector with a market share of 80% in Turkey and abroad.

OUR MISSION:

To maintain our leadership in the provision of health services by keeping the continuity of the service we provide in all medical aesthetic and hair transplant surgical products that we produce, without sacrificing quality, by following the technology, with experienced and practical equipment, and keeping hygiene at the forefront.

OUR VISION:

By following the developments and demands in the sector, to provide reliable, customer-oriented, environmentally friendly and high quality production as a leading company, to work with dedication, solution and quality, and to continue to serve our customers in the field of health by following all innovations.

ERTIP LONG HAIR FUE PUNCH
0.8 MM - 5 MM

Long Hair FUE Motorized Punch

- Long Hair FUE Motorized Punch in different diameters
- Designed for easy extraction of long hair
- Suitable with FUE micromotors that provide oscillation
- Slit design on the tip of the punch for not to break long hair follicles
- Extraction of grafts much more easily without any damage with serrated tip design
- Provides less transection rates
- Minimal scar rate thanks to its thin wall structure
- Approved by health ministry
- Certificated %100 High-Quality German stainless steel
- Variety of different diameter and depth sizes
- CE Certificate from Class 2A
- Registered with UBB Health Ministry Barcode

- 20.000 RPM
- Autoclavable handle
- Torque 2.9 NCM (Rotational force from micromotor panel to handpiece)
- Forward – Reverse rotation
- Lightweight and silent handle
- Slim and ergonomic designed handle
- Foot pedal option
- Both suitable for 110V/220V
- Color options in Silver, Red and Black

The Set Includes

- Motor panel
- SH300 Non-autoclavable handpiece
- Charger
- Handpiece stand
- Foot pedal is not included in the package

Features

- Made in Korea
- 30.000 RPM
- Torque 2.9 NCM (Rotational force from micromotor panel to handpiece)
- Compact design
- Maximum 3-4 hours working option in wireless
- RPM speed level display on the screen
- Rechargeable battery level display (Orange/Green)
- Overcharging protection
- Forward – Reverse rotation
- Foot pedal option
- Both suitable for 110V/220V
- Color options in White, Red, Pink and Black

CAP V FUE MICROMOTOR SET
(Autoclavable Handle)

CAP V FUE Micromotor Set (Both Oscillating & Rotating FUE Micromotor)

The Set Includes

- Motor panel
- Autoclavable handle
- Foot pedal

Features

- CAP V FUE Micromotor Set is a Brazilian
- There are 2 modes. One is dual (oscillating) and the other one is rotation
- In dual-mode, the device will rotate to cut the epidermis and then it automatically switches to an oscillation mode
- In the rotation position the RPM speed is 7500 maximum
- There are 3 buttons: Speed, Angle and Time. Speed is for adjusting the RPM. Angle is for adjustment of the oscillation angle, which varies according to the chosen rotation speed. Time is for adjusting rotation mode to change automatically to an oscillation mode. For example, setting time at 2 means 200 MS for rotation to change oscillation.

ES-6 AUTOCLAVABLE
HANDLE TIP

ES-6 Autoclavable Handle Tip

Features

- Autoclavable handle tip
- Made in Korea
- Autoclave the handpiece for 20 min at 121 C° or 15 min at 132C°
- Use handpiece oil before autoclave
- Works with all cable parts:

M33S & MH20E & MH24E and thanks to these cable parts, ES-6 is suitable with all FUE micromotors

NSK Autoclavable Handle Tip

Features

- Autoclavable handle tip
- Made in Japan
- Autoclave the handpiece for 20 min at 121 C° or 15 min at 132C°
- Use handpiece oil before autoclave
- Works with all cable parts:

M33S & MH20E & MH24E and thanks to these cable parts, NSK is suitable with all FUE micromotors

NSK AUTOCLAVABLE
HANDLE TIP

NSK & ES-6 Autoclavable Handle Tip
Product Codes

NSK Autoclavable Handle Tip	210-150
ES-6 Autoclavable Handle Tip	210-350

HANDPIECE BOTTOM CABLE PART
(Suitable with **ERTIP MOTOR**)

Handpiece Bottom Cable Part (Suitable with ERTIP Motor)

Features

- Cable Part for ES-6 and NSK autoclavable handpiece tip
- Works with ERTIP FUE micromotor
- Speed: 20.000 RPM

HANDPIECE BOTTOM CABLE PART
(Suitable with **RECHARGEABLE MOTOR**)

Handpiece Bottom Cable Part (Suitable with Rechargeable Motor)

Features

- Cable Part for ES-6 and NSK autoclavable handpiece tip
- Works with rechargeable and speed indicator FUE micromotor
- Speed: 30.000 RPM

Handpiece Bottom Cable Part (Suitable with Champion Motor)

Features

- Cable part for ES-6 and NSK autoclavable handpiece tip
- Works with Champion FUE micromotor
- Speed: 35.000 RPM

Cable Part Handpiece Product Codes

Suitable with ERTIP Motor	MH24-E
Suitable with Rechargeable Motor	MH20E
Suitable with Champion Motor	MH33S

HANDPIECE BOTTOM CABLE PART
(Suitable with **CHAMPION MOTOR**)

ERTIP Adson Model Transplant Forceps

- Placing forceps with adson design
- Different tip length options such as 4-5-6-7 MM
- Different angle options such as 40 - 45 and 55 for every tip length
- %100 stainless and antimagnetic steel
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Customized production possibility for different softness and hardness adjustments

STRAIGHT FORCEPS

ERTIP Customized Design Straight Forceps	
Product Code	E 44.00

ERTIP Adson Model Straight Forceps

- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & ergonomic design
- Firmly holds the graft
- Customized production possibility for different softness and hardness adjustments

ERTIP ADSON MODEL
STRAIGHT FORCEPS

ERTIP Adson Model Straight Forceps	
Product Code	E 48.00

ERTIP Curved Forceps

- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & ergonomic design
- Firmly holds the graft and provides easy extraction
- Customized production possibility for different softness and hardness adjustments

ERTIP CURVED FORCEPS

ERTIP Curved Forceps	
Product Code	E 50.00

ERTIP Horizontally Serrated Curved Forceps

- Curved forceps with horizontally serrated tip
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & ergonomic design
- Firmly holds the graft and provides easy extraction
- Customized production possibility for different softness and hardness adjustments

ERTIP HORIZONTALLY
SERRATED CURVED FORCEPS

ERTIP Horizontally Serrated Curved Forceps	
Product Code	E 50.10

ERTIP Curved Forceps With Holes

- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & ergonomic design
- Firmly holds the graft and provides easy extraction
- Customized production possibility for different softness and hardness adjustments

ERTIP CURVED FORCEPS WITH HOLES

ERTIP Curved Forceps with Holes	
Product Code	E 55.00

ERTIP Horizontally Serrated Curved Forceps With Holes

- Curved forceps with horizontally serrated tip
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & ergonomic design
- Firmly holds the graft and provides easy extraction
- Customized production possibility for different softness and hardness adjustments

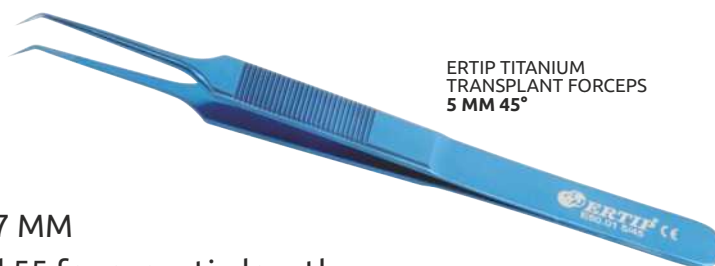

ERTIP HORIZONTALLY SERRATED CURVED FORCEPS WITH HOLES

ERTIP Horizontally Serrated Curved Forceps with Holes	
Product Code	E 55.10

ERTIP Titanium Transplant Forceps

- %100 titanium
- Different tip length options such as 4-5-6-7 MM
- Different angle options such as 40 - 45 and 55 for every tip length
- The thinnest tip and very light design
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts

- Very light design
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts

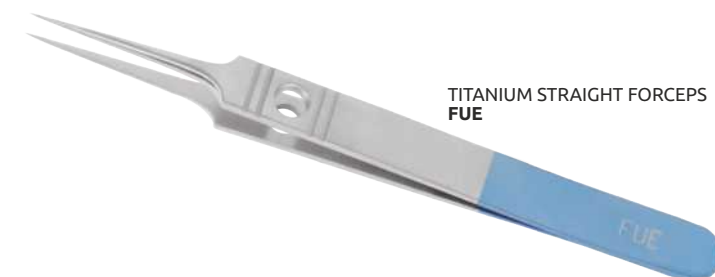

TITANIUM CURVED FORCEPS
FUE

ERTIP Titanium Curved Forceps	
Product Code	E 75.00

ERTIP Titanium Straight Forceps

- %100 titanium
- Very light design
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts

TITANIUM STRAIGHT FORCEPS
FUE

ERTIP Titanium Straight Forceps	
Product Code	E 70.00

Adson Model Robbins Transplant Forceps (3.893)

- Tip length is 5 MM, angle is 45°
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Made in Switzerland

ADSON MODEL
ROBBINS TRANSPLANT FORCEPS (3.893)
5 MM 45°

5 MM Adson Model Robbins Transplant Forceps	
Product Code	3.893

Robbins Transplant Forceps (3.815-4)

- Tip length is 4 MM, angle is 45°
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Made in Switzerland

ROBBINS
TRANSPLANT FORCEPS (3.815-4)
4 MM 45°

4 MM Robbins Transplant Forceps	
Product Code	3.815-4

Robbins Transplant Forceps (3.815-6)

- Tip length is 6 MM, angle is 45°
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Made in Switzerland

6 MM Robbins Transplant Forceps	
Product Code	3.815-6

Robbins Transplant Forceps (3.815-8)

- Tip length is 8 MM, angle is 45°
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Made in Switzerland

8 MM Robbins Transplant Forceps	
Product Code	3.815-8

Robbins Long Transplant Forceps (3.815L)

- Tip length is 5 MM, angle is 45°
- Long shaft design
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Made in Switzerland

Robbins Long Transplant Forceps	
Product Code	3.815L

Robbins Extracting Forceps with Diamond Dust (802D)

- Curved tip design
- Wide diamond dust tips
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Firmly holds the graft and provides easy extraction
- Made in Switzerland

ROBBINS EXTRACTING FORCEPS
WITH DIAMOND DUST (802D)

Robbins Extracting Forceps with Diamond Dust	
Product Code	802D

Robbins Adson Model Curved Forceps No:7 (3.897)

- Adson shaft and curved tip design
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Firmly holds the graft and provides easy extraction
- Made in Switzerland

ROBBINS ADSON MODEL
CURVED FORCEPS NO:7 (3.897)

Robbins Adson Model Curved Forceps No:7	
Product Code	3.897

Robbins Curved Forceps No:7 (3.333B)

- Curved tip design
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Firmly holds the graft and provides easy extraction
- Made in Switzerland

ROBBINS CURVED FORCEPS
NO:7 (3.333B)

Robbins Curved Forceps No:7	
Product Code	3.333B

Robbins Straight Forceps (3.333)

- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Made in Switzerland

ROBBINS STRAIGHT
FORCEPS (3.333)

Robbins Straight Forceps	
Product Code	3.333

Robbins Adson Model Straight Forceps (894)

- Shaft length is 12 CM
- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Made in Switzerland

ROBBINS ADSON MODEL
STRAIGHT FORCEPS (894)

Robbins Adson Model Straight Forceps	
Product Code	894

Robbins Adson Model Straight Forceps with Oblique Tip (3.896)

- %100 stainless steel & antimagnetic
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts
- Made in Switzerland

ROBBINS ADSON MODEL
STRAIGHT FORCEPS
WITH OBLIQUE TIP (3.896)

Robbins Adson Model Straight Forceps with Oblique Tip	
Product Code	3.896

ERTIP Gold Transplant Forceps

- Different tip length options such as 4-5-6-7 MM
- Different angle options such as 40 - 45 and 55 for every tip length
- %100 stainless and antimagnetic steel
- Autoclavable
- Easy hold & light and ergonomic design
- Non-stick tip design for grafts

An innovation for incision: Sapphire Blade Technique

**NEW
PRODUCT**

Sapphire Blade

- Autoclavable and reusable crystal sapphire tip
- Non-metallic, antiallergic
- Natural results
- Clean and accurate cut with minimal tissue trauma
- Scarring is reduced and incisions heal quickly
- Variety of different diameter sizes and length
- Use with titanium handle

Sapphire Blade Product Codes		
	5 MM	5.5 MM
0.75 MM	370-075	380-075

Titanium Sapphire Blade Handle

- Suitable for all sizes of sapphire blade
- Titanium-made body
- Autoclavable

Titanium Sapphire Blade Handle	
Product Code	370-101

INCURAM Choi DHI Implanter 0.7 MM

- 0.7 MM diameter, green color implanter
- Made in Korea
- Autoclavable and reusable
- Ergonomic design
- Adjustable depth length
- Comes in a sterile pocket
- Different diameter options for eyebrows, hair and beard
- Color coding options for different diameters
- Reducing surgery time thanks to making incisions at the same time with placing grafts
- One box contains 5 implanters
- CE Certificate from Class 2A

INCURAM Choi DHI Implanter Needle 0.7 MM

- 0.7 MM diameter, green color needle
- Use with 0.7 MM Incuram implanter
- Made in Korea
- Disposable DHI needle
- Comes in a sterile pocket
- Different diameter options for eyebrows, hair and beard
- Color coding options for different diameters
- One box contains 20 needles
- CE Certificate from Class 2A

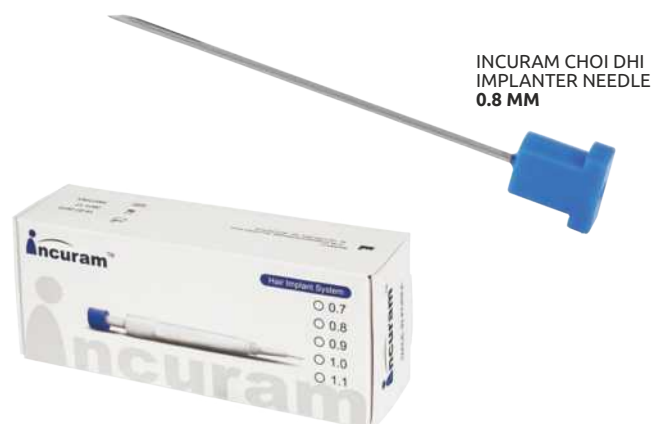

INCURAM DHI Implanter Needle 0.7 MM	
Product Code	192-017

INCURAM Choi DHI Implanter Needle 0.8 MM

- 0.8 MM diameter, blue color needle
- Use with 0.8 MM Incuram implanter
- Made in Korea
- Disposable DHI needle
- Comes in a sterile pocket
- Different diameter options for eyebrows, hair and beard
- Color coding options for different diameters
- One box contains 20 needles
- CE Certificate from Class 2A

INCURAM DHI Implanter Needle 0.8 MM	
Product Code	192-018

INCURAM Choi DHI Implanter Needle 0.9 MM

- 0.9 MM diameter, red color needle
- Use with 0.9 MM Incuram implanter
- Made in Korea
- Disposable DHI needle
- Comes in a sterile pocket
- Different diameter options for eyebrows, hair and beard
- Color coding options for different diameters
- One box contains 20 needles
- CE Certificate from Class 2A

INCURAM Implanter Needle 0.9 MM	
Product Code	192-019

INCURAM Choi DHI Implanter Needle 1.0 MM

- 1.0 MM diameter, white color needle
- Use with 1.0 MM Incuram implanter
- Made in Korea
- Disposable DHI needle
- Comes in a sterile pocket
- Different diameter options for eyebrows, hair and beard
- Color coding options for different diameters
- One box contains 20 needles
- CE Certificate from Class 2A

INCURAM Implanter Needle 1.0 MM	
Product Code	192-010

INCURAM Choi DHI Implanter Needle 1.1 MM

- 1.1 MM diameter, black color needle
- Use with 1.1 MM Incuram implanter
- Made in Korea
- Disposable DHI needle
- Comes in a sterile pocket
- Different diameter options for eyebrows, hair and beard
- Color coding options for different diameters

Ellis Blade Handle

- Made in USA
- Depth control for blades
- Firmly holds the blades
- Easy and comfortable usage
- Helpful to give proper direction to slits
- Reusable stainless steel
- Length: 12 cm

ELLIS BLADE HANDLE

Ellis Blade Handle	
Product Code	180-000

ERTIP Blade Handle

- Tungsten carbide tip design
- Depth control for blades
- Firmly holds the blades
- Easy and comfortable usage
- Helpful to give proper direction to slits
- Reusable stainless steel
- Length: 13 cm

ERTIP BLADE HANDLE

ERTIP Blade Handle	
Product Code	180-010

Silver Blade Handle

- Robbins brand silver blade handle
- Made in USA
- Depth control for blades
- Firmly holds the blades
- Easy and comfortable usage
- Helpful to give proper direction to slits
- Reusable stainless steel
- Length: 15 cm

SILVER BLADE HANDLE

Silver Blade Handle	
Product Code	180-001

Gold Blade Handle

- Robbins brand gold plated blade handle
- Made in USA
- Depth control for blades
- Firmly holds the blades
- Easy and comfortable usage
- Helpful to give proper direction to slits
- Reusable stainless steel
- Length: 15 cm

GOLD BLADE HANDLE

Gold Blade Handle	
Product Code	180-002

Surgical Scissors (Silver)

- Surgical scissors straight, sharp/ blunt
- Length: 14.5 cm
- Material: Japanese steel 420
- Polish: Mirror
- Hardness: 45- 48

SURGICAL SCISSORS
SILVER

Surgical Scissors (Silver)	
Product Code	E 140.10

Surgical Scissors (Gold)

- Surgical scissors with tungsten carbide straight, sharp/ blunt
- Length: 14,5 cm
- Material: Japanese steel 420
- Polish: Mirror with gold rings
- Hardness: 45- 48

- Easy to use with touchscreen and user-friendly interface
- Improved PID cooling system
- Alarm warning system to alert the user
- Automatic fan control system reduces fan noise when it comes to the desired temperature
- Multi language support (Turkish-English language support)
- Provides to cool four glass petries at the same time
- High quality electrostatic painting aluminum alloy body
- Suitable with both 110 volts and 220 volts (Ask for a device suitable for the voltage in your region)
- Works with only one plug, adapter is inside of the device
- + - 0.5 °C maximum measurement error
- CE and ISO certificates are available
- Size: (W-L-H) 32X43x19 cm 15 kg

Quadruple Plated Chiller Device

Quadruple Plated Chiller Device	
Product Code	850-004

Chiller Device with Table Model

- On stainless steel table, 4 petrie cooling system
- User-friendly interface
- Improved PID cooling system
- Fan control system
- Provides to cool four glass petries at the same time
- Suitable with both 110 volts and 220 volts
(Ask for a device suitable for the voltage in your region)
- $\pm 0.5^{\circ}\text{C}$ maximum measurement error
- CE and ISO certificates are available
- Size: (W-L-H) 50x70x78 cm 40 kg

Chiller Device with Table Model

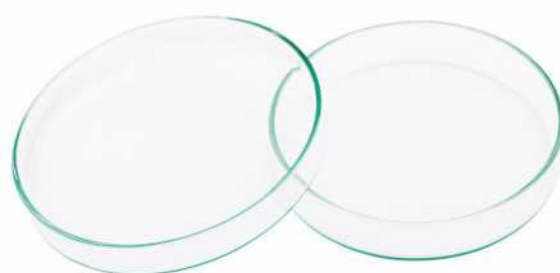

Chiller Device with Table Model

Visiano Led Examination Light

- Led technology
- Colour temperatures (3500K and 4500K) allow individual contrast viewing
- 60.000 lux from 0.5 m
- 360 rotation of the luminaire head
- Illumination strenght dimmable in 4 stages
- Complies with the requirements of standards EN 60601-1, EN 60601-2-41
- Protection against the spread of bacteria with the help of silver ions
- With foot, wall or cell mounted are optional

Visiano Led Examination Light

Product Code

160-000

Triango 100 Led Treatment Luminaire

The TRIANGO 100 provides optimum light conditions, thus making it the best assistant for any physician. At an illuminance of 100,000 Lux at 1.0 m, it enables precise interventions and accurate diagnoses for the patient's benefit.

- Unique design
- 9 LEDs with RA 95
- 100.000 lux illuminance from 1 meter
- High quality arm system sterilisable grip and maintenance free
- 4 dimming levels (40 / 60 / 80 / 100 %)
- Colour temperature of the light: 4700 K, optionally with adjustable colour temperature: 3700K / 4300K / 4700K*
- Illumination field diameter: 18 cm
- Optionally with focusable light field diameter: 18-28 cm*
- Unique diamond optics
- Independent spring arm system with large angle of motion and radius of action
- Intuitive operation via membrane keypad
- Detachable and sterilisable handle
- Optionally with endo mode (Ideal light for endoscopic interventions)*
- Medical product to EN 60601-1 and EN 60601-2-41
- Cell mounted and foot are optional
- When mounting ceiling tube could be cut to length 25-120 cm

Triango 100 Led Treatment Luminaire

Hair Analysis Device Mic-Fi

- Made in Italy
- Wi-Fi digital microscope
- Includes line calibration ruler
- High definition microscopy lens
- Wireless and portable
- Adjustable focus and magnification
- Suitable with MAC, Android, IOS

Hair Analysis Device Mic-Fi

Hair Analysis Device Mic-Fi

Product Code

860-000

Eschenbach Densitometer

- 1 cm square divided into quarters, simply count the number of follicles in one quadrant and multiply by four, this equals the hair density per/cm square
- 10X crystal clear magnification
- 1 cm square viewing area divided into quarters
- Light powered by 2 C batteries

Eschenbach Densitometer

Eschenbach Densitometer	
Product Code	820-001

Densitometer

- 10X Magnification
- 1 cm square inbuilt scale
- Measurement of the donor hair density
- Useful at the time of consultation to determine number of follicular unit grafts required
- Light powered by 1 AA battery

Densitometer

Densitometer	
Product Code	380-002

Autoclave

- 23 liter autoclave
- Stainless steel tub
- It provides 360° full dimensional disinfection
- Set includes drink distilled water & Seal 120 packaging device

Autoclave
23 Lt

Drink Distilled Water

NSK Brand Handpiece Oil

- Handpiece oil for NSK and ES-6 handpiece tip parts
- Effectively lubricates and cleans bearings on pneumatic and angled handpieces
- Regular use of the pana air will not only prolong the life of the handpiece but also maintains a high performance of the pneumatic micromotor

NSK Brand Handpiece Oil

NSK Brand Handpiece Oil	
Product Code	400-009

Digital Centrifuge

- Mechanical time adjustment from 1 to 99 minutes
- Electronic speed control
- Cover safety switch
- Short-term operation with pulse key
- Locking system that prevents opening the lid while it is working
- Tube capacity: 4x15 ml
- Speed Control Panel: Speed, RCF and time control
- Speed adjustment range: 500-5000 RPM
- Size: 29x25x36 cm

Digital Centrifuge

Digital Centrifuge	
Product Code	400-012

Manual Centrifuge

- Capacity: 20 ml tube x 6 pieces
- Max speed: 4000 RPM Per min
- Power: 220V 50Hz
- Weight: 3.5 kg
- Maximum time setting: 60 min

Manual Centrifuge

Manual Centrifuge	
Product Code	400-013

Ultrasonic Cleaner

Ultrasonic Cleaner

- Available in 4 & 12 liter
- Ultrasonic power: 300W
- Heating power: 600W
- Heat control: 20-90 C °
- Time adjust: 0-60 Min

Ultrasonic Cleaner	
Product Code	400-014
